

LEJONKLOU SAGATUN PREAMPS

Lejonklou Preamps: Sagatun and Sagatun Mono – clean, simple, versatile, easy to use, and unfailingly musical. Front panel and remote control (included) operation.

- The most engaging and musical preamplifiers we have experienced
- Line-stage preamps designed from the front-end back to retain as much of the musical signal as possible
- The Sagatun circuit combines very short signal paths with high speed and high reliability components
- Components carefully selected for the most musical performance after extensive listening tests. Precise matching of critical components
- Dual Switch Mode power supplies in both stereo and Mono units
- Four inputs plus special direct fifth input with even better performance
- Exclusive, Lejonklou-designed volume color-change display for clear feedback and superb musical performance and control syncing system for multiple units
- Simple, clean all aluminum casework with a hardwearing black speckle finish
- Very reasonably priced at \$4950.00 per unit – stereo or Mono
